

Whitehill 2011

Tooling for Industry

Whitehill

Welcome to the 2011 Whitehill catalogue

Over the last two years we have shown a big commitment to manufacturing in the UK, investing over £1.5 million. A new 11,000 square foot factory and 2 new state-of-the-art machines will ensure Whitehill remain one of the leading tooling manufacturers in the UK.

A second Schneberger profile grinder with 10 pallet loading uses the latest technology to provide even greater accuracy as well as increasing profiling capacity to 400 plus per day. Loading with the Fanuc robot allows HSS & TCT knives to be profiled 24 hours a day, six days a week

A new Puma Mill/Turning Centre carries out all of the machining operations to produce a finished cutterhead or tool in one loading. The machine moves the work piece between the various operations without manual intervention - traditionally it required handling up to 6 times.

The new Whitehill 2011 catalogue shows new design window tooling which can fit spindle moulders, any type of tenoner & CNC routers. HSK63F tool holders as well as window or profile tooling are available from stock, or can be manufactured to fit your machine. We have also further increased our range of standard profiles for mould & scribes.

We are proud of our commitment to quality and service and welcome customers to visit our Luton factory where over 90% of products are manufactured.

David Hudson, Managing Director.

TCT Lockmitre Head

2 wing disposable TCT blades

Man.

This Lock Mitre Cutter will make both cuts. One edge needs to be cut face down (horizontal) and the other needs to be cut on edge (vertical). There is no re-set-up on Spindle Moulder for these two cuts.

Horizontal cut 15/28mm material

Multico Replacement Heads Limiter Combihead Scribe/ Rebate Block Quick Set Tooling for Multico Tenoners

Combiheads are a Limiter Scribing and Rebate Block in one Cutterhead.

This enables the fitting of shaped quick set scribing knives, without the removal of the cutterhead, straight onto location pins for exact setting.

The TCT knives remain locked in the head, enabling square tenons to be cut.

Multico - 50mm	Code	Price £
125 x 50 LH Bottom Head	120S00110	175.00 each

Standard Terms and Condition of Sale

Prices

All prices quoted are pounds sterling.

Prices shown are exclusive of VAT, which will be levied at the current rate.

Carriage and packing charges extra.

Payment

Terms are strictly nett monthly account.

All goods remain the property of Whitehill Spindle Tools Ltd until full settlement of the relevant charge has been made.

We shall be entitled to charge interest at 3% above the base rate of Whitehill's Bankers on all overdue accounts.

Whitehill will also charge and be entitled to recover any cost or charges involved in recovering overdue accounts.

A comprehensive list of our Terms and Conditions of Sale is available on request.
